**TRS-80**

A listing of applications software for the TRS-80, including author, program description, types of media available, minimum equipment required, price and ordering information. Listings for Games, Business Applications and Home Use.  
Cat. No. 26-2114

**VOLUME II**

## IMPORTANT NOTICE

This Sourcebook is a compilation of numerous application software programs prepared by both professional and amateur programmers for use on Model I, Model II, Model III, Color, and Pocket TRS-80 microcomputers, who have requested their programs be listed. These programs are offered by the author listed. All inquiries and correspondence concerning the programs should be directed to the author at the address shown in the Sourcebook. All Radio Shack programs are available through your local Radio Shack store or participating dealer.

Since Radio Shack has not examined nor tested the programs offered by other persons, firms, or companies, it makes no warranties or recommendations, express or implied, with respect to these non-Radio Shack programs, including, but not limited to: availability, accuracy, reliability, capacity of software or hardware, performance, hardware requirements, or whether such programs are merchantable and fit for the purposes for which they were intended. Further, Radio Shack is not responsible for errors occurring in the Sourcebook listing.

All Radio Shack programs are offered under Radio Shack's standard terms and conditions.

## TRS-80 APPLICATIONS SOFTWARE SOURCEBOOK

### How To Obtain A Listing For Your Program

To obtain a listing in the TRS-80 Application Software Sourcebook for a period of one year, you must complete the attached form(s) and mail it with a \$10.00 check or money order to the address below. Make remittance payable to "Radio Shack."

Should you want one program listed under more than one category, separate listing forms and fees must be submitted for each listing.

The TRS-80 Applications Software Sourcebook will accept only listings for applications software. Requests to list systems software will be returned. Radio Shack reserves the right to reject any listing submitted by returning the payment to the sender. Further, all listings are accepted with the express understanding that Radio Shack shall have no liability for errors which may occur in the printed Software Sourcebook listing, including the failure to include a listing, and in no event shall Radio Shack be liable for damages to any person submitting listings in an amount greater than the listing fee (\$10.00). All persons submitting a listing agree not to induce Radio Shack sales personnel to promote the sale of listed software by the payment of commissions, fees, or in any other manner.

The Sourcebook will be available at all Radio Shack stores and participating dealers in the U.S.A., and will be updated and reprinted periodically as needed. Listings must be resubmitted or renewed to be included for more than one year. Sorry, there are no "quantity discounts" for multiple listings.
