## INTERNAL/EXTERNAL CATALOG USERS

Attached is the July 1980 Literature Catalog. Literature and Distribution has decided to print a combined internal and external catalog this year rather than two separate catalogs.

Customer ordering instructions will be found on the first few pages of this catalog. Internal ordering instructions are listed below. Please place this cover memo inside the front cover of your catalog for future reference.

PHONE, TWX AND RUSH PROCEDURES: No orders will be accepted for more than five line items. All phone orders must be approved by the Requestor's Management as well as LDS Management. TWX orders will not be honored unless a complete department number and "Ship TO" address are provided as well as the reason a TWX order is necessary.

BACKORDER PROCEDURE: If a requisitioner requires an item to be backordered, they must so indicate on the Literature and Stocked Forms Request (AA1538-2). Place a "B" in the column marked "B" if you wish manuals or binders to be backordered. Brochures and Data Sheets are not backordered due to ever changing marketing emphasis which delays reprint cycles.

RETURN TO STOCK: Only books that are unused and at the current level stocked by LDS may be returned for credit. Please obtain proper approval and return procedures from LDS before returning any books.

AUTOMATIC DISTRIBUTION PROCEDURE FOR INTERNATIONAL SUBSIDIARIES: If, as an International Subsidiary, you are not familiar with the Automatic Distribution Service (A/D), please contact LDS and we will send you a copy of the guidelines. Domestic Customer A/D procedures are found in this catalog.

MANUALS ON MICROFICHE: Publication numbers prefixed by a GF indicates the manual is available in microfiche form.

LITERATURE ORDERING PROCEDURE: See example on reverse side of this page.

G.F. Moore, Manager  
Literature & Distribution Services

## MANUAL DEFINITION

The following general description of manuals, operator guides and handbooks is provided to allow the catalog user to more quickly identify categorically, the type of book he requires. With this information the user can then relate more easily to the section of this catalog which contains the required manual.

Hardware Reference Manual - This manual provides functional and operational descriptions and general programming capability information on Control Data hardware products and systems. This manual is written to the level of a knowledgeable prospective customer, professional programmer, and equipment operator.

Customer Engineering Manual Or Hardware Maintenance Manual - This manual provides the technical information necessary to maintain Control Data hardware products. Categories of information presented, in one or more volumes, are: General Description, Operation and Programming, Installation and Checkout, Theory of Operation, Diagrams, Maintenance, Maintenance Aids, Parts Data, Wire Lists, and Equation Summary [or equivalent].

Hardware Reference/Customer Engineering Manual Or Hardware Reference/Maintenance Manual - This combined manual, usually for less complex devices that require minimal programming information, contains the same information as that in separate Reference and Customer Engineering manuals.

Site Preparation Manual - This manual presents technical information with which to plan and prepare sites for computer installation. Three sections make up this manual:

Section I: General Information - Two Section I manuals are available: One for small systems; the other covers large and medium-scale systems.

Section II: System Information - Section II manuals cover site planning information for specific systems; e.g., 3300, 6400, etc.

Section III: Peripheral Equipment - Section III provides site planning data on all Control Data peripheral equipment.

Hardware Diagnostic Reference Manual - This manual provides a functional description and detailed operating instructions for diagnostic programs.

System Operator's Manual - This manual provides operating instructions to the system operator. Instructions in this manual normally include system start-up, message formats, error recovery procedures, and general system information. This manual is written to the level of computer operators who do not have a detailed knowledge of programming.

## LITERATURE ORDERING POLICY AND PROCEDURES

Please read these policies and procedures prior to ordering to avoid confusion and mistakes and also to expedite the handling of orders.

PURCHASE ORDERS - Orders directed to LDS should include, if possible, a numbered purchase order, a money order or personal check.

DOMESTIC ORDERS - All purchase orders from domestic customers should be forwarded directly to:

LITERATURE AND DISTRIBUTION  
CONTROL DATA CORPORATION  
308 NORTH DALE STREET  
ST. PAUL, MINNESOTA 55103

INTERNATIONAL ORDERS - International customer orders should be directed to the nearest Control Data Sales Office. The Control Data Sales Office will then process your order through LDS.

PRICING - The prices contained in this catalog for domestic customers only and are subject to change without notice.

FOB - All prices are F.O.B. Destination. Premium freight such as air freight will be invoiced as a separate item.

TERMS: NET 30 DAYS

SHIPPING REQUIREMENTS - Shipping instructions as given by the customer will be followed whenever possible. However, when the instructions cannot be adhered to, LDS reserves the right to determine the mode of transportation.

PRICE QUOTES - Price quotes are available upon request and are valid for 30 days only.

TELEPHONE ORDERS - LDS will accept telephone orders but each order must reference a purchase order number. A purchase order must follow confirming the phone order, and should be marked "confirmation, do not duplicate".

IDENTIFICATION OF MANUALS NEEDED - When ordering, you must specify whether you require a specific revision packet to a manual or if you desire the complete manual with all applicable revision packets updating the publication to its current revision level.

NOTE: In some cases, the revision packet required is not available. However, the manual itself may have been reprinted through the revision which you require. If the packet is not available and you wish LDS to send you the updated manual, please specify same on your order.

# **SECTION 1**

This section contains Hardware Manuals for individual equipments arranged in equipment designator sequence. Product numbers are included in parenthesis after the equipment designator. Additional manuals may be found in Section 2 by looking up the Product Number.

# **SECTION 2**

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 {CL309-A/B, FF511-A/B}. Since Hardware Manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section 1 as well as the Product Number.

# SECTION 3

## PLEASE NOTE:

A number of Software Manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

### Manuals in this section

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading.

If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.

# SECTION 5

## OTHER SOURCES OF CONTROL DATA LITERATURE

This section was established to list literature of all types which are generated by individuals and departments within Control Data but which are referenced in any specific catalog. LDS wishes to make clear that the items contained in this section ARE NOT AVAILABLE THROUGH LDS but that they can be obtained by contacting those responsible individuals as shown in this section. LDS expects to enlarge this miscellaneous category as more people become aware of its existence and add to it. We are primarily looking to include that literature which may have meaning and value to other people within the Corporation regardless of subject matter. Because of the wide content span of this literature, most of the items have been listed alphabetically by their generating department or division.

FOR INTERNAL USERS ONLY

### Miscellaneous Manuals

	<u>Pub. No.</u>	
BCMC Conversion Kit (TF801) HM Manual Supplement	86804600	
BI/BH Module Tester Operator's Guide (TA204)	75425600

#### ASPOL REFERENCE MANUAL { Publication number 17314200 }

Responsible Individual: G. Steinbach  
Professional Services Library  
215 Moffett Park Drive  
Sunnyvale, California 94086  
SVL05  
408-734-7295

MAGNETIC PERIPHERALS INC.  
{OKLAHOMA CITY}

This document provides a catalog of all publications available from MPI-OKC Publications as of the catalog issue date.

Two listings are provided. The first is sorted by publication identity number (PUB ID SORT); the second by marketing identifier (MKT ID SORT). The information in each listing is identical, as described below.

LEGEND

- PUB ID - This column indicates publication identity. The number specified uniquely identifies the associated publication, and should be used in all reference to the document.
- REV - This column indicates current revision level of the document. An asterisk in this column indicates that the document is provided by a vendor, and current revision level is not tracked by MPI Publications.
- C - This column contains an asterisk if the publication applies to an OKC product in current production, and is blank otherwise. If the product is current, but the publication has been superseded by another, the column is blank.
- MKT ID - This column indicates the Marketing Identifier of the product or products to which the publication applies.
- PUB TYPE - This column indicates whether the publication is a Field Service Manual (FSM), Product Specification (Prod Spec), Application Note (Appl Note), Operator's Manual (Oper Man), Reference Manual (Ref Man), System Manual (Sys Man), Test and Diagnostic Manual (T&Ds), or Media Manual (Med Man).
- REMARKS - This column contains additional information concerning the publication and ordering requirements. In this column, note that certain publications require additional information when placing an order. For instance, references to TLA, TMA, and HPC No's (Top Level Assembly, Top Mechanical Assembly and Hardware Product Configurator respectively) indicate that, in addition to the PUB ID number, the TLA or TMA or HPC number is also required. These numbers can be found on the product ID plate.

Technical Publications  
Magnetic Peripherals Inc.  
4000 Northwest 39th Expressway  
Oklahoma City, Oklahoma 73112
