## Instructions for Input/Output Briefs

1. Purpose: I/O Briefs are designed for items of a "Want Ad" or general information nature, intended for publication in the Cyberline. Use of I/O Briefs obviate the necessity for preparation of full-page letters whose main purpose is dissemination of brief requests or replies thereto.
2. The form is largely self-explanatory. Members should, however, observe the following ground rules:
  - a. Messages should be captioned so as to attract the reader's eye as to the essential nature of the paragraph.
  - b. They should be brief and concise.
  - c. They must be submitted and signed by the person whose name, full mailing address, and Telephone/Telex/TWX number(s) are to be contained in the message as the "contract" or "source".
3. As Editor-in-Chief of the Cyberline, the VIM/ECODU Secretary (Operating under policies established by the VIM/ECODU Board of Directors) reserves the right to decline publication of any submitted INPUT/OUTPUT Brief, publication of which would, in his opinion, be at variance with established VIM/ECODU policies or otherwise not in the best interest of the VIM/ECODU Organization.
