PATHWORKS for DOS Version 4.1 Client Documentation Map

This documentation map contains information about the books contained in your client kit, and other books and kits you may need to order. The documentation in this release replaces all documentation in Version 4.0.

Before you install the client software, read:

Client Release Notes
Describe new features and important information for client system administrators and end users.

Found on a separate diskette.

To install and configure the client software, read:

Client Installation and Configuration Guide
Describes how to install and configure PATHWORKS for DOS software; includes installation checklists and a map that leads you through the necessary tasks; for system administrators.

Also gives instructions for setting up the client and server to run asynchronous DECnet communications.

Note: Make sure that you have the client software and installation guide for the media you are installing: VMS media, ULTRIX media, or diskettes.

VMS, ULTRIX, or OS/2 Server
You must install and configure the server software before installing the client software.

The server software and documentation is sold in a separate kit.

Consult the Server Installation Guide (available with the kit) for your particular server platform.

For an overview of the entire PATHWORKS platform, read:

Overview

Provides information about all PATHWORKS clients and servers; describes how your client software works with other PATHWORKS products.

Client Master Index

Directs you to information about all PATHWORKS for DOS topics.

To manage clients and handle memory problems, read:

Client Installation and Configuration Guide

Includes information on adding new clients and setting up local printers.

Memory Solutions for Client Administrators

Provides step-by-step procedures and examples for configuring memory for DOS-based computers. Covers both extended and expanded memory and includes hints for improving performance.

Client Commands Reference

Describes all the commands that you need to manage the client software; in reference format.

DECnet Network Management Guide

Tells system administrators how to set up, tune, and maintain DECnet networks.

Microsoft LAN Manager User's Guide for MS-DOS

Explains how the Microsoft LAN Manager client works and how to use commands for the Enhanced and Basic versions.

To learn quickly how to use the basic client software, read:

User's Handbook

Describes all the basic client applications and user functions; includes a section on the basics of using PC DECwindows Motif and remote printers.

Also available separately: AA-PAF7C-TK

Client Commands Reference

Includes all the commands that you need to use the client software.

To use the client applications included in PATHWORKS for DOS, read:

SEDT User's Reference

Provides configuration information and basic reference material for using the SEDT editor on your personal computer.

Mail User's Reference

Provides information on how to configure Mail; includes a complete reference for using all Mail options.

SETHOST Terminal Emulation Guide

Shows how to use SETHOST to make your personal computer function as a terminal over either DECnet or TCP/IP.

DECnet User's Guide

Provides information on using DECnet file transfer utilities between your personal computer and other computers on DECnet.

PC DECwindows Motif Guide

Explains how to configure PC DECwindows Motif and how to use the X server at your personal computer. For advanced users.

Microsoft Windows Support Guide

Explains how to configure Microsoft Windows to run on your personal computer; explains how to use the VT320 terminal emulator.

Listed below are other useful resources and related documentation not included in the basic client documentation kit.

DECnet Programmer's Reference Manual

Guides you through developing PATHWORKS applications for DECnet-DOS; includes information on LAT, CTERM, and NETBIOS; contains C programming reference.

To order, use part number AA-PAFJC-TK.

TCP/IP Kit

If you plan to run TCP/IP, you need a TCP/IP license and kit. Each kit includes the TCP/IP User's Reference.

To order the documentation separately, use part number QA-YV9AA-GZ.

Network Troubleshooting Guide

Tells system administrators how to troubleshoot DECnet (Ethernet and Token Ring), TCP/IP, LAT, and LAST software.

This document is included in your VMS server, ULTRIX server, or OS/2 kit.

TCP/IP Programmer's Reference

Describes how to develop PATHWORKS for DOS applications for use over the TCP/IP transport.

To order, use part number AA-PESZA-TK

Although you have all the books in your client media kit, you may want to order additional documentation kits; these kits are:

- PATHWORKS for DOS: VMS Media Documentation Kit   QA-0TLAB-GZ.4.1
- PATHWORKS for DOS: Diskette Media Documentation Kit   QA-0TLAC-GZ.4.1
- PATHWORKS for DOS: ULTRIX Media Documentation Kit   QA-0TLAE-GZ.4.1
- PATHWORKS for DOS: User Documentation Kit   QA-0TLAA-GZ.4.1
- DECnet-DOS Documentation Kit   QA-0TLAD-GZ.4.1

The following table shows the documentation included with each kit.

VMS	Disk	ULTRIX	User	DECnet	Document Title
■	■	■	■		Client Documentation Map
■	■	■			Overview
■	■	■			Client Installation and Configuration
■	■	■	■		User's Handbook

■	■	■	■		Client Master Index
■	■	■			DOS SPD 55.07.11
■	■	■			DOS SSA 55.07.11-A
■	■	■			Software Warranty Addendum

To order the User's Handbook separately, use part number AA-PAF7C-TK.

How to Order Documentation

This section describes how to order documentation by telephone or direct mail.

Direct Telephone Orders

Continental USA, Alaska, and Hawaii	Call 800-DIGITAL
Puerto Rico	Call 809-754-7575
Canada	Call 800-267-6215
International	Call your local Digital subsidiary or approved distributor

Electronic Orders

To place an order at the Electronic Store, dial 800-234-1998 using a 1200- or 2400-baud modem. For assistance using the Electronic Store, call 800-DIGITAL.

Direct Mail

Continental USA, Alaska, and Hawaii	Digital Equipment Corporation P.O. Box CS2008 Nashua, NH 03061
Puerto Rico	Contact your local Digital subsidiary at 809-754-7575
Canada	Digital Equipment Corporation Attn: DECdirect Operations KAO2/2 P.O. Box 13000 100 Herzberg Road Kanata, Ontario, Canada K2K 2A6
International	Digital Equipment Corporation P&SG Business Manager c/o local Digital subsidiary or approved distributor

Internal Orders

To place internal orders for documentation, submit an Internal Software Order Form (EN-01740-07) to SSB Order Processing, WMO/E15 or to Software Supply Business, Digital Equipment Corporation, Westminster, MA 01473.
