ECCENTRICITIES OF CSL'S 1401 SYSTEM

The purpose of the Note is to initiate a series of documents which describe special case situations in the CSL's 1401 System. Similar Notes will be prepared for XD-1A Central Processing Element (N-17473/000/00), XD-1A Peripheral Control Element (N-17474/000/00), and XD-1A Interrupt and Other Systems Related to the XD-1A (N-17476/000/00).

These Notes will be in terms of hardware functions, without attempting to indicate coding applications and without regard to any "program system" imposed restrictions.

Each Note in each series will include a listing of all other active Notes in that series.
